

1 Making L^AT_EX Math Audibly Legible

We use the new tokcycle package to transform math symbols into spoken text. See if you agree.

x , sub i , , raised to the power 2, $+$, y , raised to the power 2, $=$, , left paren, z , raised to the power 2, $+$, 1, right paren ,
(1)

, the matrix, 1, 2, , end row 3, 4, , end matrix,

$$x_i^2 + y^2 = (z^2 + 1) \tag{2}$$

Or this one:

$$Z = \frac{x + 1}{2} \tag{3}$$
